OFFICE OF
AIR AND RADIATION

Mr. Kaushal Rao
Director of Production
JM Eagle
5200 Century Boulevard
Los Angeles, California 90045

Dear Mr. Rao:

I would like to congratulate JM Eagle for its efforts in achieving the spirit of the ENERGY STAR Challenge. The ENERGY STAR Challenge is a national call to action to improve the energy efficiency of U.S. commercial and industrial facilities by 10 percent or more. Your outstanding accomplishments in improving energy efficiency by 10 percent or more at 5 of your 14 plants, all while managing in the current economy, is impressive and shows your entire organization has embraced energy efficiency and is achieving goals that benefit your business and the environment.

JM Eagle should be proud of its achievements. We at EPA value our ENERGY STAR partnership with your company and look forward to continuing to work with you as you build on this strong foundation. I encourage you to continue to work to improve the energy performance of all of your plants.

Sincerely,

A handwritten signature in dark ink, appearing to read "Elizabeth Dutrow", is positioned above the printed name.

Elizabeth Dutrow
Director, Industrial Sector Partnerships
ENERGY STAR
