

West Point

- **Location:**

West Point, Iowa

- **Type of Installation:**

Water line for new subdivision

- **Products Installed:**

4-inch Eagle Loc 900

- **Feet of Product:**

2,750 feet

- **Date Completed:**

June 2009

- **Type of Project:**

Horizontal directional drilling installation and material substitution replacing a product with external joint restraint. The contractor buried the pipe 5 feet deep in 400-foot sections using an 8-inch reamer attached directly to the pulling head and pipe to avoid wet and muddy soils, as well as an adjacent heavily used soccer field.
